Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Friday 09 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Generally cloudy, showers later.

Today:
A cloudy start across the region, staying dry through the morning with some sunny spells towards midday. Showers will gradually develop during the morning, light at first but possibly heavy in the afternoon. Maximum temperature 20 deg C (68 deg F).

Tonight:
Showers will fade away early this evening leaving a dry but mostly cloudy night. A few clear spells will develop towards dawn with some mist forming near the coasts. Minimum temperature 11 deg C (52 deg F).

Saturday:
A sunnier day in the west with showers developing again, these will be heavier and more frequent than on Friday. Staying cloudy and misty along the coasts, possibly some drizzle. Maximum temperature 21 deg C (70 deg F).

Outlook for Sunday to Tuesday:
An unsettled outlook with heavy showers developing Sunday and Monday, and low cloud persisting around the coasts. A drier and brighter day on Tuesday, with light showers in the west.
